EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nicolas E. Seckel on 6 September 2005.

The application has been amended as follows:

Amend claims 16 and 17 as follows:

16. (Currently amended): The anisotropic light scattering element according to claim 1, wherein the birefringent layer ~~develops~~ has a phase difference of at least $1/5$ wavelength with respect to incident light in a direction inclined by 30° from the normal direction.

17. (Currently amended): The anisotropic light scattering element according to claim 1, wherein the birefringent layer ~~develops~~ has a phase difference of from $1/4$ to 1 wavelength with respect to incident light in a direction inclined by 30° from the normal direction.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 1-5 and 7-17 are allowable over the prior art for at least the reason that the prior art fails to teach and/or suggest an anisotropic scattering element including an anisotropic polarization dependent

scattering layer and a birefringent layer having the phase differences as set forth in the claimed combination.

Ishikawa et al., JP 04-25892 A, discloses a birefringent layer having the phase differences that are very small with respect to incident light in a normal direction and increase with respect to incident light in a direction inclined from the normal directions but do not have an anisotropic polarization dependent scattering layer as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lee Fineman whose telephone number is (571) 272-2313. The examiner can normally be reached on Monday - Friday 7:30 - 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Drew Dunn can be reached on (571) 272-2312. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
